

We'll be forever grateful for your support!

Here's some useful information to get you started with:

www.bitalino.com is the place to go to:

- download [Software](#) and [APIs](#) for data acquisition
- access [Documentation](#) to get things going
- have the latest info about [BITalino](#)

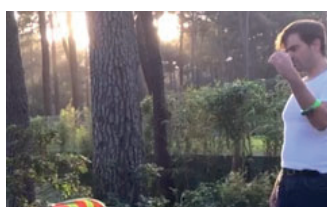

Experience your BITalino in 4 easy steps.*

- 1 Turn on BITalino
- 2 Pair BITalino via Bluetooth setup (PIN: 1234)
- 3 Add the MAC address in the OpenSignals software settings
- 4 Record your signals!

*FAQ and detailed setup instructions can be found in the user manual, which can be download from the Help Screen inside the OpenSignals software or from bitalino.com.

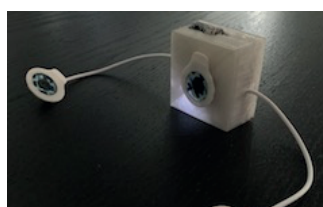

Here are a few examples of what you can do...

Wearable Drone Controller

Robotic Prosthetic Hand

Holter-like ECG device

Excitement-reaction Room
